2. Donaldson, Erle C., Subsurface Disposal of Industrial Wastes in the U. S., Bureau of Mines Information Circular 8212, 1961, 34 pp.
3. Ives, Robert E. and Eddy, Gerald E., Subsurface Disposal of Industrial Wastes, Interstate Oil Compact Commission, P. O. Box 53127, Oklahoma City, Oklahoma 73105, June 1968, 109 pp.
4. Cleary, Edward J., Perspective on the Regulation of Underground Injection of Industrial Wastewaters, 1969. Available for \$3.00 from ORSANCO, 414 Walnut Street, Cincinnati, Ohio 45202. Recommends against deep well injection.
5. Piper, Arthur M., "Disposal of Liquid Wastes by Injection Underground--Neither Myth nor Millennium," U. S. Geological Survey Circular 631. Free from USGS. An excellent discussion of real and potential problems. Extensive bibliography.

NOTE: In view of the problems which may have resulted from deep well injection of wastes from the Rocky Mountain Arsenal near Denver, any proposals for deep well injection should be thoroughly studied. The trend of thought seems to be unfavorable toward deep well disposal of wastes. The Secretary has assigned to GS the responsibility for research into this subject.

Please send any additional references on this subject or other minerals subjects to DSC (D-310). If the complete article or publication is needed, DSC (D-310) will attempt to obtain a copy or a loan for you.
